Notes to the Condensed Consolidated Interim Financial Statements

June 30, 2013 and 2012

(unaudited - expressed in US dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Virginia Energy Resources Inc. (the "Company" or "Virginia") is a resource company focused on the exploration and development of uranium deposits located in the southern part of Virginia, United States and exploration of uranium in Quebec. Virginia was incorporated in the Yukon on August 31, 2007 and continued to British Columbia under the British Columbia Corporations Act on May 21, 2009. On September 27, 2012, the Company acquired all the outstanding shares of VA Uranium Holdings Inc. and its subsidiaries and Otish Minerals Ltd. (note 4). Prior to September 27, 2012, the Company held an investment in VA Uranium Holdings Inc.

Details of the Company's subsidiaries are as follows:

Name of Subsidiary	Nature of Operations	Place of Incorporation	Ownership Interest
Virginia Uranium Inc. ("VirginiaCo")	Exploration and development of uranium deposits	Virginia	100 %
Southside Cattle Company LLC ("Southside")	Holding Company	Virginia	100 %
Otish Minerals Ltd.	Exploration and development of uranium deposits	British Columbia	100 %

The head office and records office of the Company are located at 611 - 675 West Hastings Street, Vancouver, British Columbia, Canada, V6B 1N2.

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") on a going concern basis, which assumes the realization of assets and liquidation of liabilities in the normal course of business.

If the going concern assumption were not appropriate for these condensed consolidated interim financial statements then adjustments would be necessary to the carrying value of assets and liabilities, the reported expenses and the statement of financial position classifications used. Such adjustments could be material.

2. BASIS OF PRESENTATION

Statement of compliance

These condensed consolidated interim financial statements of the Company, including its subsidiaries, have been prepared in accordance with International Accounting Standard ("IAS") 1 Presentation of Financial Statements using accounting policies consistent with the International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and the interpretations of the International Financial Reporting Interpretations Committee ("IFRIC). The accounting policies set out in Note 3 of the financial statements as at and for the year ended December 31, 2012 have been applied in preparing these condensed interim financial statements. These condensed consolidated interim financial statements were authorized for issuance by the Company's Board of Directors on August 28, 2013.

3. MARKETABLE SECURITIES

In connection with a private placement, the Company subscribed for 21,851,411 common shares of Energy Fuels Inc. issued on a private placement basis valued at \$3,688,027 (CAD\$3,714,740). In addition, 1,311,085 Energy Fuels Inc. common shares issued to the Company were subsequently transferred to a third party as a finder's fee for a total value of \$217,195 and are reported as share issue costs payable at the fair value of \$199,463 at June 30, 2013.

The remaining 20,540,326 Energy Fuels Inc. common shares are designated as available-for-sale securities and had a fair value of \$3,124,759 (CAD\$3,286,452) at June 30, 2013. Under various circumstances (which include recent equity financing and mergers and acquisition activities undertaken by Energy Fuels) the Company is limited to selling 112,500 common shares per day of Energy Fuels. Such circumstances were in effect as of June 30, 2013.

The Otish Mountain Property

The Company holds a 100% interest in several blocks of mineral claims in the Otish Mountains of northern Quebec. Some of the claims are subject to NSRs between 1.5% and 2.0%, of which portions may be acquired for consideration of up to CAD \$2,000,000.

On March 28, 2013, the Company learned that the Government of Quebec will conduct an impact study on the exploration and development of uranium in the province. The Bureau d'Audiences Publiques sur l'Environnement has been given a mandate to conduct the study next fall. Until the study is completed, the Government stated that no certificates of authorization will be issued for the exploration or development of uranium in Quebec. Further exploration on the Company's Otish Mountains uranium project will be suspended until such time that the Quebec government completes this evaluation.

In light of the events of March 28, 2013, the Company has impaired its Otish mineral properties, including the exploration and evaluation expenditures and field equipment by a total of \$3,517,816 as at June 30, 2013. The Company is actively pursuing its administrative and legal options with regard to the government decision.

7. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company has classified its financial assets as follows:

Financial assets	June 30, 2013		December 31, 2012	
	FVTPL Level 1	Loans and Receivables Level 3	FVTPL Level 1	Loans and Receivables Level 3
Cash and cash equivalents	2,482,042	\$ -	\$ 479,983	\$ -

	\$ 5,806,253	\$ 99,250	\$ 479,983	\$ 81,997

The financial assets are carried at fair value as at June 30, 2013 and December 31, 2012. The Company classifies its financial liabilities, accounts payable and accrued liabilities and loans payable, as other financial liabilities and carries them at amortized cost.

Risk Management

The Company has exposure to the following risks associated with its financial instruments:

Currency Risk

The Company operates in the United States and Canada and is exposed to foreign exchange risk as certain expenditures are denominated in non-US dollar currencies. Canadian dollar denominated balances generated foreign exchange gains and losses that are reported on the Statement of Loss and Comprehensive Loss. A strengthening or weakening of \$0.01 in the U.S. dollar against the Canadian dollar would not have a material impact on net loss. At June 30, 2013 and December 31, 2012, 1 U.S. Dollar was equal to 1.0518 and 0.9843 Canadian Dollars respectively.

The balances listed below are the Canadian dollar denominated balances which were translated to their US dollar equivalent.

	June 30, 2013	December 31, 2012
Cash and cash equivalents	\$ 1,956,982	\$ 284,096
Commodity taxes receivable	35,993	36,122
Marketable securities	3,324,211	-
Accounts payable and accrued expenses	(288,747)	(468,245)
Finder's fee payable	(203,218)	-
	\$ 4,825,221	\$ (148,027)

8. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

Interest Rate Risk

The Company has cash balances and deposits at fixed rates. The Company currently invests its excess cash in money market accounts and certificate of deposits held by United States and Canadian banking institutions. The Company manages its interest rate risk on these investments by maximizing the interest income earned on excess funds while maintaining the liquidity necessary to conduct operations on a day-to-day basis. Fluctuations in market rates of interest on cash and cash equivalents do not have a significant impact on the Company's results of operations due to the short term maturity of the investments. The effect of a one basis point increase or decrease on the short-term investments to net loss is not material.

Credit Risk

The Company has no significant concentration of credit risk arising from operations. Cash equivalents consist of money market accounts that have been invested with United States and Canadian banking institutions with short-term maturities. Management believes the risk of loss is remote. Commodity taxes receivable consist primarily of goods and services tax due from the Federal Government of Canada and amounts due from related parties. The maximum exposure to credit risk is limited to amounts shown on the balance sheet at June 30, 2013. Management believes that the credit risk associated with accounts receivable is remote.

Liquidity Risk and Fair Value Hierarchy

The Company manages its liquidity risk by preparing and monitoring forecasts of cash expenditures to ensure that it will have sufficient liquidity to meet liabilities when due. The Company's accounts payable and accrued liabilities generally have maturities of less than 90 days.

The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

Under the fair value hierarchy for 2013 and 2012, cash, cash equivalents and marketable securities would be considered a level 1 fair value measure.

VIRGINIA ENERGY RESOURCES INC. (formerly Virginia Uranium Ltd.)

Notes to the Condensed Consolidated Interim Financial Statements

June 30, 2013 and 2012

(unaudited - expressed in US dollars)

9. CAPITAL MANAGEMENT

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern in order to pursue the exploration and development programs on its mineral properties. The Company manages its capital structure, consisting of shareholders' equity, and makes adjustments to it, based on funds available to the Company, in order to support the exploration and development of its mineral properties. The Company relies primarily on the issuance of common shares for its capital requirements.

All of the Company's cash and cash equivalents are available for exploration and development programs and administrative operations. The Company has not changed its approach to capital management during the current period, and is not subject to any external capital restrictions.

10. RELATED PARTY TRANSACTIONS

Due from related party consists of \$99,250 due from Anthem for reimbursement of certain operating expenses.

Note payable to related party consists of a Promissory Note payable to Anthem of \$4,004,014 exchanged in the acquisition of the Otish property. The note bears interest at the rate of 3% per annum and matures on August 20, 2015. Included in the loan balance is accrued interest on the Promissory Note in the amount of \$84,123. The Company and Anthem have common officers.

Loan payable to related party at December 31, 2012 consisted of a short term bridge loan from Sprott Resources Lending Corp. for working capital. The loan bore interest at the rate of 12% annually and matured on February 28, 2013. In consideration for the advance, the Company agreed to pay a structuring fee to Sprott in the amount of CAD\$7,500 and a cash bonus payment equal to 6% of the principal amount of the loan. A director of the Company is also a director and officer of Sprott Inc. and a director of Sprott Resource Corp. The loan and accrued interest was paid off on January 31, 2013.

During the six months ended June 30, 2013, an officer and director of the Company was paid \$50,000 (2012 - \$nil) for legal services.
